COVID-19 Vaccine DYK

After a person has received 2 doses of the COVID-19 vaccine, do they still need to wear a mask?

The answer is **YES**—A person must continue to wear a mask even after receiving both doses of the COVID-19 vaccine because the study of the vaccine's effectiveness is still ongoing. It is not currently known how long the immunity will last and although the vaccine will prevent a person from getting sick with COVID-19, it is not known if the vaccine will prevent a person from spreading the disease. Therefore, masks, social distancing and handwashing will be with us for a while longer.
